Vol. 1, No. 28

EDMONTON-ALBERTA, FEBRUARY 26, 1949

SUBSCRIPTION \$2.00 PER YEAR

Local Pioneer Laid to Rest

ST. ALBERT—A pioneer of the district, Mrs. J. Gaulin was buried in St. Albert, Monday at 10:30 o'clock.

People from Edmonton, Morinville, Villeneuve and her many friends and acquaintances were present to show a last mark of respect to a lady who has always been an example to her community. Mrs. Gaulin was always the first to help in parish organizations and in all the social life of the town. With her husband she has lived the pioneer days of the west. Her story was written last year on the occasion of their golden jubilee of marriage.

She leaves to mourn her loss a beloved husband, five sons and two daughters, one of which is a religious at the convent in Morinville. A few of her children have predeceased her.

Funeral mass was sung by J. A. Gaudet, O.M.I., assisted by J. Patone, O.M.I. from St. Joachim as deacon, and C. Tourigny, O.M.I., as sub-deacon. Father Tessier, parish priest at Morinville, a friend of the family, assisted.

The burial was in the family plot in St. Albert.

Over 130 mass cards were offered by friends and many floral bouquets received.

Sincere sympathies are extended to the bereaved husband and family.

Attend Enterprise Combination

ST. ALBERT—Mothers of St. Albert and Mrs. Bission's Grades V and VI classes were privileged to attend an enjoyable program presented by Sister Lemire's grade III class on Wednesday afternoon, Feb. 16. The program was a culmination of a school enterprise entitled, "Our Community."

It consisted of recitations and songs portraying the life of the community. The doctor, the nurse, the storekeeper, the shoemaker, etc., were brought in review by the children. Each child played his part capably.

Booklets dealing with the subject and made by the children were on display.

All present appreciated the results of Sister Lemire's work.

Third Fire Since December

MORINVILLE—A barn owned by Mr. Alfred Martel was levelled to the ground by a fire of unknown origin about 2:00 a.m. on Feb. 19. A score of volunteer fire-fighters braved the 30-below zero weather and rushed to the scene with the local fire engine. They were unable to save the building but did save, however, an adjoining shed.

Two RCMP constables arrived at the scene shortly after the fire started and stated that they had seen the glow 12 miles away. One constable escaped without injury when a roof on which he was standing collapsed.

The building was used for storage of some \$600 worth of plumbing and wiring equipment as well as some personal household belongings.

THEY TELL ME

The scene is set in the CBC's Toronto studios for another broadcast of "They Tell Me," and just before the producer signals "go." Commentator CLAIRE WALLACE and Announcer ELWOOD GLOVER discuss some last-minute script details. Every Monday Wednesday and Friday at 12:45 p.m. on CBW, 11:45 a.m. on CBK, CBX, globe-trotting Claire tells Elwood about all the interesting people she runs across in her search for human-interest stories, and the coast-to-coast radio audience listens in via the CBC Trans-Canada network. Claire has been digging up unusual news items and presenting them on the air in a bright and easy manner for 15 years.

ST. ALBERT BRIEFS

ST. ALBERT—The sick hospitalized in Edmonton, the wee ones and older ones are recovering. Some of them are already home.

Mr. Mat. Leonard arrived home Saturday after visiting in Montreal for the last two months.

Mr. and Mrs. Simon MacMillan are making their home, temporarily in St. Albert. For the last two years they have lived in Calgary. Misses Rita and Edith McDonald of Edmonton were visiting their parents over the week-end.

The St. Albert C.Y.O. entertained the Morinville group in the parish hall Sunday evening. A skating party was arranged, but due to the cold weather skating was cancelled and a social party was held in the hall.

Father Gaudet has informed the correspondent of St. Albert to the weekly Gazette to make public his resignation as chaplain of the C.Y.O. St. Albert group. He is no more responsible, therefore, for socials, meetings, where said C.Y.O. is concerned.

He is keeping, at the special request of the Volmer group, his study clubs with them, their next one to be held at the home of Mr. and Mrs. P. Borle. Father Carter has promised to call if informed on time. We shall be glad to have you, Father Carter. We shall let you know.

It is rumored that Pierre Girard bought property near Fort Saskatchewan and will move out there with his family early in March.

Bruno Houle, employed at the Youville convent these past five years, has moved to Hobbsburg with his family. He will take charge of the farm at the Residential School. Good luck, Mr. and Mrs. Houle—but your friends will miss you!

Gordon Akins, son of Mr. and Mrs. L. Akins, was taken to the hospital last week for an appendix operation. He is doing very nicely and should be home this week.

The St. Albert Pee-Wee Hockey Club won over the St. Leon's Pee-Wee Club last Saturday. Score was 7-6. The goals were made by David Joyal 5, Royden Roberts 1, and Pierre Joyal 1 for St. Albert. Keep up the good work, boys!

Congratulations are extended to

Mr. and Mrs. Joseph Gunn on the birth of a son.

"Warning Wings," a three-act mystery play, will be staged in the St. Albert parish hall, March 20. More details later.

Miss Gertrude Rousseau is Bride

MORINVILLE—Wednesday, Feb. 23, was the day on which Miss Gertrude Rousseau, daughter of Mr. and Mrs. E. Rousseau of Morinville, became the bride of Mr. Leo Charest of Edmonton. The wedding took place at the St. Jean the Baptist Church in Morinville, and Rev. Father Tessier performed the ceremony in which the bride was given in marriage by her father.

The bridal gown was of white satin styled with a lace-trimmed peplum and a yoke of white net.

Miss Pauline Rousseau, sister of the bride, and Miss Helen Grant were bridesmaids. They wore similarly styled gowns of blue and pink taffeta, respectively. A blue crown trimmed with pink flowers, and blue mittens completed Miss Rousseau's ensemble, and Miss Grant chose a pink crown trimmed with blue flowers, and pink mittens.

The bride carried a bouquet of red and white carnations. The bridesmaids carried nosegays of pink roses and sweet peas.

Mr. Maurice Charest, brother of the groom, and Mr. Jim Rousseau, brother of the bride, were best-men at the wedding.

Following the ceremony a reception was held at the bride's home. Mrs. Rousseau, receiving, wore a black dress with silver trimmings, and a corsage of peach carnations. Mrs. Charest chose a blue dress and corsage of pink carnations for the occasion.

A dinner for some 120 guests was held at the Club Antagon. A dance in Morinville, with music supplied by the Morinville Merry-makers took place in the evening. Another dance honoring the young couple will be held on Feb. 28, at the Scona Assembly Hall, Edmonton.

Mr. and Mrs. Charest will make their home in Edmonton.

MORINVILLE NEWS

MORINVILLE—On Wednesday, Feb. 16, a shower was held in the annex of the dance hall, in honor of Miss Gertrude Rousseau, bride-elect of Feb. 23.

A baby girl was born to Mr. and Mrs. Lawrence Pelletier, Feb. 10.

Despite the cold weather between 350 and 400 people attended the RCAF band concert held Feb. 15. Both popular and classical numbers were included on the evening's program.

Mr. Louis McDonald was recently operated on for gallstones. Also in hospital is Mr. August Krausoph. He is in the Royal Alexandra hospital and has been there since last Sunday.

The hockey tournament scheduled for last week-end was postponed due to the cold.

W.I. Holds Valentine Dance

ST. ALBERT—The St. Albert Women's Institute held a very successful Valentine dance, Monday, Feb. 14, and all who attended had a very enjoyable evening.

We wish to extend our sincere thanks to Mrs. Laderoute and Mrs. Lamer who convoked this affair, and to their willing helpers.

We also would like to express our appreciation and thanks to all those outside our institute who so generously contributed such attractive and delicious refreshments.

Water and Sewerage Plan for Legal

LEGAL—Tenders are being called for installation of water and sewerage systems in the up-and-coming and progressive town of Legal.

It is expected that the entire project will cost close to \$49,000.00 and this amount has been approved by the Board of Public Utilities Commissioners last November.

It is expected that the system will serve 65 homes and about 25 business and public places. Debentures are on hand and will be offered for sale immediately on a 20-year basis at 4½% interest.

Want Daily Mail Service

LEGAL—The Board of Trade of Legal would like to see an improvement in the mail service between Edmonton and Legal. At present there is a daily mail between Edmonton and Morinville by truck. The Board of Trade would like to have this extended to serve Legal also, in place of the present three times a week mail service.

K. of C. to Be Organized in Legal

LEGAL—An organizing committee is active in Westlock, Pickardville, Vimy and Legal to get a council formed for this district. Insured members are required and it is hoped to have sufficient of these to have a council established in April. It is also hoped that this council may be able to recruit members at Morinville.

Farm Equipment Office Undergoing Renovation

LEGAL—Edward Massie and Bernard Montpetit of Legal have been assisting Mr. Lucien Provost and his assistant, Leonard Merkosky in getting the Massey-Harris office and warehouse ready for another year's operations.

The show room has been renovated with the proper counter and parts department installed and also Mr. Provost's office has been moved to another part of the show room and this also has been improved.

Two New School Vans for Legal

LEGAL—Two new vans, one built by O. Lafranchise and another built by De Champlain's Garage of Legal are in operation this year transporting children to school in Legal.

Van drivers are Pete Bunchant, Joe Pelletier, Philip Pelletier, Ted Cassavant and Art Pelletier.

Up to the first of February the vans had lost only one day in not being able to cover their territory and make the daily rounds in bringing children to and from school.

New Mayor Elected By Acclamation

LEGAL—Mr. Montpetit has been re-elected mayor of Legal by acclamation.

Mr. Leo Carriere is secretary-treasurer of the town and councillors are Denis, Mercier and Lucien Provost.

Former Toronto Man Now at Morinville

MORINVILLE—Mr. "Morty" Milner of Vegreville, new proprietor of the Morinville Hotel came recently from the Prince Edward Hotel at Vegreville. Prior to that time Mr. Milner was accountant for Rogers Majors and John Inglis Co. at Toronto where he spent 10 years.

Mr. and Mrs. Milner are now in residence at the hotel along with their two little girls.

The former proprietor, Mr. Montpetier is on vacation at the Pacific coast but expects to return shortly to reside in Morinville.

Complete Staff Now At Hotel Coffee Shop

ST. ALBERT—Mrs. A. Sevigny of St. Albert has now a complete staff and is operating the up-to-date and modern coffee shop in the Bruin Inn Hotel here.

The shop is conveniently located on the main street and has been newly decorated and has the latest equipment in the dining room and in the kitchen. The hours are from 7:30 a.m. to 11:00 p.m. and until 1:00 a.m. on dance nights.

This gives an almost around the clock service to diners at any hour of the day except on Sundays when the hours are from 9:00 a.m. to 8:00 p.m.

Mrs. Sevigny who specializes in serving of home cooking has on her staff Mrs. N. Genereux, Evelyn Sevigny and Mrs. J. Gerard.

Getting People To Eat Right Things

By RUTH MURRAY, D.H.E.

Knowing all we should know about the right foods for the right people does not help unless we can get that food inside the person. Not until the food is eaten will it do them any good. This is why food should be attractively served. The temperatures should be pleasant and right for the particular type of food served.

Regular times should be set for meals and the meals should be on time. The food should be eaten in a pleasant atmosphere of relaxation and uninterrupted calm. Unpleasant topics and over excitement should not be allowed at the meal table.

If there is some person in your family who is very nervous and excitable they should have a

short rest before their meals then freshen up and come to the table in as nearly a relaxed attitude as possible.

Countless digestive difficulties can be traced back to continuous unpleasant meals.

Remember your Canada's Food Rules and check every day to see if you are following them. Drink plenty of water and take your fish liver oil daily. With these rules in mind we expect Canada to live up to the high standards of health and good nutrition of which we know they are capable.

In 1947 there were 3,042,000 families in Canada, an increase of 516,700 since the 1941 census. This increase ranged from 11 per cent in the prairie provinces to 47 per cent in British Columbia. Average family size, however, was 3.7 persons as compared with 3.9 in 1941. —Quick Canadian Facts.

HERE and THERE

By T. W. PUE

Recently I have been interested in several projects designed to create community centres for citizens of various towns where communities can work together and play together in community places.

Wherever you see a fine new community hall or other structure erected more or less by community effort, you can tell that the right kind of people live in that town or village and that they work along well together.

A week or so ago I was in Legal and Mr. Lucien Provost, public spirited and active businessman of the community, took me around to the new church building which is being erected at the north end of the main street. Of all the community efforts I have seen this tops them all.

T. W. Pue

A place to worship: Some time ago the parish of Legal negotiated with the RCAF for purchase of a hangar at Innisfree. This was dismantled, as the hangar was originally built in sections, and brought up to Legal where it has since been re-erected.

The church, to be known as "La Paroisse Catholique De Ste. Emile," is named after Bishop Emile Legal, one of the early pioneers of the Catholic faith in Alberta.

The building is really massive, as you can imagine any airplane hangar used by the RCAF. It houses not only the church and the recreation community hall, but has the priest's residence, a bowling alley, kitchen and space for offices of various kinds.

They have not yet completed the large section which is the church itself. Although not completed, it is being used for regular services. It is heated by hot air stoker and furnace and the air is filtered and forced through the building by a 10 h.p. motor.

When I called with Mr. Lucien Provost, I found Napoleon Bellery in charge of the following group of men busily engaged in completing work on the recreation room: Joe Pagnon, A. Leonard, Hector Bellery, Marcel Bouchard, Philip Prefontaine, Henry Gruneau.

Quite a number of willing volunteers were also on the job, including the Keim Bros., Joe Demers, Leo Prefontaine, Henry Montpetit, Zenon St. Jean, O. Pelletier, Paul Champagne. Quite a number of others have also donated their efforts to the work.

Electricians on the job at the time I called there were: A. Oullette and E. Oullette. Caretaker of the building is Louis Laforce.

To my mind the civic and spiritual leaders of Legal are doing a great piece of work in getting together on a project such as this. They are popularizing the wholesome recreational activities and in doing so are not detracting from the necessity of a true sense of spiritual values.

Since Canada's first National Park was created at Banff in 1885 the system has grown to include 26 parks with an area of over 29,660 square miles. It stretches from the Selkirk Mountains in British Columbia to the east coast of Cape Breton Island, Nova Scotia. —Quick Canadian Facts.

650 Educational Class Conducted For Immigrants

The educational and other assistance given to immigrants by Provincial Educational Authorities, local school boards, and welfare organizations throughout Canada was of the greatest importance in bringing to these newcomers an understanding of the Canadian way of life. Hon. Humphrey Mitchell, Minister of Labour stated recently.

The Minister reported that at the present time about 14,000 adult immigrants were attending 650 classes across Canada, under the supervision of provincial and local educational authorities, with language difficulties, of course, receiving top priority.

The help given by various agencies, particularly those engaged in adult education, had been of valued assistance in teaching the new citizens the fundamental rights and responsibilities of Canadian citizenship, the Minister said.

Over and above the direct benefits deriving from educational assistance, were less easily assessed benefits resulting from the opportunity for the immigrant to make worthwhile social contacts, by attendance at regular classes and through other social and educational functions arranged by local and national welfare committees and organizations.

One tree type, the Douglas fir, furnishes more than half of all the lumber sawn at British Columbia mills. —Quick Canadian Facts.

Mrs. Manning to Christen Ship

Canada's first "supertanker"—the largest oil carrier ever to operate under Canadian registry—will be christened "Imperial Alberta" by Mrs. E. C. Manning, wife of Premier Manning of Alberta, when the big ship is launched early in April.

The new vessel, which will cost some \$5,250,000 and will carry 228,000 barrels of oil, will join the

Imperial Oil Shipping Co. Ltd. fleet in May, Capt. W. R. Smeltzer, general manager announced recently. The supertanker is now under construction in the Sun Shipbuilding and Dry Dock Co. yards at Chester, Pennsylvania.

The ship is equal in size and speed to the best tankers in the world. Supertankers carry oil more economically than any other ship now in service, for large capacity and high speed mean lower operating costs.

The "Imperial Alberta" is expected to go into the Persian Gulf trade, bringing Middle Eastern crude oil to Portland, Me., terminus of the Montreal-Portland pipe line, or to Halifax.

The tanker will have a deadweight tonnage of 28,000 and a speed of 16 knots. Turbines will develop 12,500 shaft horsepower. Modern navigation aids will include radar, gyrocompass, direction finder and fathometer.

Exceptionally good accommodation is provided for the crew of 46, with not more than two men to a room, a bathroom for every four, recreation rooms for officers and men and a well-equipped hospital.

The "Imperial Alberta" will bring the shipping company's fleet to a total of 10 ocean ships and one coastal tanker. In addition,

Imperial Oil's marine department operates 17 lake and coastal vessels.

Including the supertanker, eight new ships have been added to the ocean fleet and three to the lake fleet since World War II ended. During the war five of the lake ships were pressed into the hazardous coastal service but all escaped unscathed. The ocean fleet was not so fortunate. Four ships were lost through enemy action. Three tankers, worn out in arduous service, were scrapped after hostilities ceased.

The supertanker is not the first Imperial ship to bear Alberta's name on the high seas. There were two others. The first was the 11,900-ton "Albertolite", built in 1921 and sold in 1928. A year later Imperial bought the "Caddo" and renamed her "Albertolite". This was one of the ships, worn out in service, which was scrapped after the war. She went to the shipbreakers in 1946.

59,954 Acres Into New Crop in '48

Canadian farmers—1,203 in six provinces—borrowed \$492,685.50 under the Farm Improvement Act in 1948 to clear and break 59,954 acres of land for new crop production.

Alberta led all other provinces, using \$310,231.25 for clearing and breaking 35,875 acres. Nova Scotia was last, obtaining \$180 to clear and break 24 acres.

Rapid expansion of productive farming has been made possible by the development of modern mechanized machinery to clear and break new land. Because this machinery is available on a custom basis, farmers and land settlers have been hampered in the past, by cash shortages, in getting the benefit of this mechanized equipment.

With the advent of the Act in 1944, however, funds became available to farmers in outlying areas for this work, and as a result of these loans 183,874 acres have been brought under cultivation since 1945.

Apprenticeship In Canada

Publication of a descriptive booklet on Apprenticeship in Canada was announced recently by the Hon. Humphrey Mitchell, Minister of Labor.

The booklet was prepared by the Training Branch of the Department of Labor and was designed as a descriptive, rather than a critical analysis of the subject of apprenticeship, the minister explained.

The booklet contains, among other subjects, sections on government apprenticeship training plans in Canada, industrial plans, and basic principles of apprenticeship. Outlines of the systems of apprenticeship in Great Britain, South Africa, New Zealand, the United States and Australia are also included.

Much of the information in the booklet was compiled through the co-operation of the Provincial Directors of Apprenticeship and the Canadian Manufacturers' Association.

Toronto Far Behind

Buffalo, smaller in area and population than Toronto, has 40 times as much wiring underground as the Canadian city.

Use 21 Languages

The world-wide advertising program for the second Canadian International Trade Fair, to be held in Toronto next May 30 to June 10, is being conducted in 550 publications in 21 languages.

There are over 100 branches of the Victorian Order of Nurses in Canada. They are distributed through every province with the exception of Prince Edward Island.—Quick Canadian Facts.

The Royal Canadian Mounted Police maintains two scientific

laboratories for the examination of exhibits of all kinds. Their services are also available to all police forces. The R.C.M.P. also maintains two Police Colleges where selected personnel from other police forces may study.—Quick Canadian Facts.

School Tax Settled At Lac la Biche

LAC LA BICHE—Dispute on the subject of the Lac la Biche school tax which has been of current interest to the residents of this community, has been settled, according to an official announcement. Principals in the dispute have been the taxpayers and the provincial government.

A complete report of the agreement reached will appear in next week's issue of the Lac la Biche Herald.

VIMY NEWS

VIMY.—Mrs. Philip Fagnan entered the Westlock hospital last week.

Mr. Albert Baert was also admitted to the hospital last week. The Vimy branch of the C.Y.O. held a party for all their members on Friday, Feb. 18. This was the first member party since they organized in January although many projects have been undertaken. Dancing, a skit by the drama committee, lunch and talks and explanations of the Catholic Youth Organization given by organizers Joe Stratton and Johnny Tibault of Edmonton were on the evening's program.

All members enjoyed the project and the means of being able to meet their fellow district mem-

bers for a bit of amusement. The organization expects to sponsor more of these parties as often as possible.

Montpetit Re-Elected Mayor — Money Surplus Reported

LEGAL.—George Montpetit was re-elected mayor of Legal at the annual council meeting. Mr. Montpetit has been mayor for the past three years.

A surplus of \$8,000 in the town council's treasury was reported for the year.

Mr. Lucien Provost explained the council's financing plan to the large number of taxpayers present, and advocated that approximately half of the \$8,000 be trans-

ferred to a sinking fund. The idea was fairly well received.

Major discussion centred on the subjects of debentures and sewage and water. Most of the debentures have been sold, and contractors are expected to start work on the sewage and water projects in June.

Caisse Populaire de Morinville Savings and Credit Union Ltd.

MORINVILLE.—Since moving into our office in May our assets have increased by \$36,925.57. The business that has gone through our books is \$196,292.92. This does not include about one quarter of a million dollars of other than our own cheques that have been cashed at the office. So from this we see that almost half a million dollars has gone through your Credit Union Office since opening it in May.

Doctor From London Now at Morinville

MORINVILLE.—When the new municipal office at Morinville is completed, Dr. Smith, formerly of London, England, expects to have his office located in this convenient building on the main street.

Arriving in Canada with Mrs. Smith and 19-month-old child, the doctor picked up his practice here in Morinville at the end of January.

Meanwhile temporary quarters for the doctor's office and living quarters have been made available at the Alberta Hotel.

To Summer In Belgium

MORINVILLE.—Henry Paeppe of the Egg Lake Coal Mine at Morinville plans on making a trip this summer to Belgium. He first came to Canada from Belgium in 1927 and made a trip in 1940 to visit in the old country.

KNOW YOUR CHEESE?

What'll we have for supper is no question for you if you keep an extra pound of cheese handy. Cheese is not only a general favorite with most people but also an almost perfect food for everyone. Over a gallon of milk goes into the making of one pound of cheese, which means a one-inch cube of cheese has the same food value as a glass of milk.

Cheese can take the place of meat in the diet, and is a good source of riboflavin, calcium and phosphorus. When made from sour milk, however, cheese contains

less calcium than fresh milk.

Cheese is not hard to digest if it is cooked at low temperature and served with bulky foods such as fruits and vegetables. It stands to reason, however, that you may have indigestion if you eat a thick slice of cheese with a generous piece of pie after you have already eaten a heavy meal.

Cooking cheese for a long time at a high temperature will make the cheese go hard and stringy and the fat will separate out.

To melt cheese cut it fine and heat slowly over hot water; only hard cheeses grate easily. If you want to grate a soft cheese try forcing it through a sieve with the back of a spoon. Hard cheeses can be ground in a food chopper—soft cheeses cannot be kept for as long as hard cheeses.

Always keep cheese tightly covered in waxed paper in a cool place. Strong cheeses will taint other foods, so keep these by themselves.

Hard Canadian cheese is good for macaroni and cheese, souffles and to serve with pie.

The softer spreading cheeses are better for sauces, rarebits, and for stuffing celery and prunes.

1. Now for some ideas for serving cheese—What about a generous slice of cheese to go with a

vegetable or fruit salad, accompanied by brown bread or buns?

2. Cheese sandwiches are an old standby for the lunch box. For a change spread one buttered slice of bread with orange marmalade or chopped dates, or chopped apples, spread the other slice with cheese.

For supper dishes what about one of these:

CANNED CORN WITH CHEESE
Take one tin of canned corn, place in buttered dish. In separate bowl mix: 1 cup of milk (or 4 tbs. dry milk such as Klim). Add 3 tbs. flour, pinch of salt and 1 tap. sugar. Add ½ cup of grated cheese (Ontario cheese for instance).

Mix all well together and then pour over can of corn. Stir a little to just mix. Sprinkle 1 tap. grated cheese on top so that it will brown quickly. Cook 25 minutes in a moderate oven.

MEXICAN RICE

½ cup rice (cooked)
2 tbs. fat
½ tap. salt
1 cup tomato sauce
½ cup grated cheese
Heat frying pan very hot, add fat then rice and cook until slightly browned, stirring with fork. Pour into casserole and cover with sauce and cheese. Run fork through so rice is coated with tomato and cheese. Cover with crumbs. Heat in oven.
The Dominion Department of Agriculture Bulletin "Cheese Dishes" will give you other ideas. Write to me for your copy.

RUTH WHALEY,
District Home Economist.

IN REHEARSAL

ERIC WILD and the CBC WINNIPEG ORCHESTRA were in rehearsal at CBC's Winnipeg studios (Station CBW), when this picture was taken. The orchestra is heard in the Winnipeg Sunday Concerts every two weeks, alternating with the Vancouver Symphony Orchestra, and also in other CBC programs originating in Winnipeg under Mr. Wild's direction.

On the Trans-Canada Telephone System, operated by Canada's seven largest telephone companies or systems, 80 per cent of the calls are completed while the customer remains on the line.—Quick Canadian Facts.

UNWELCOME GIFT *

Screen actress Lizabeth Scott has one of Hollywood's largest collections of tropical and miniature fish, her home containing seven aquariums of the precious creatures. Imagine the chagrin experienced by the star of Paramount's "Bitter Victory" when at the end of the picture her co-star, Robert Cummings, presented her with a pedigreed Siamese cat. Its diet is mainly—fish.

UNIVERSITY NEWS COLUMN

A series of articles on the work
of the various departments of the
UNIVERSITY OF ALBERTA

2. ACADEMIC ORGANIZATION AND BUILDINGS

All academic matters in the
University are under the jurisdiction
of the General Faculty Council.
The President of the University
is the Chairman and the membership
includes all Deans of Faculties,
Directors of Schools, full professors
of all departments, the librarian
and the registrar, who acts as secretary.

This body approves all courses
and examination results, recommends
degrees, arranges timetables
and hears appeals from students
and others from the decisions
of Faculty Councils. It also controls
examinations for the right to secure
registration with a large number
of professional societies in the province
of Alberta. The list as follows:

- The Alberta Association of Architects;
- The Alberta Land Surveyors' Association;
- The Alberta Dental Association;
- The College of Physicians and Surgeons of Alberta;
- The Alberta Pharmaceutical Association;
- The Institute of Chartered Accountants of Alberta;
- The Association of Registered Nurses of Alberta;
- The Association of Professional Engineers of Alberta;
- The Veterinary Association of Alberta;
- The Alberta Optometric Association of Alberta;
- The Alberta Institute of Agrolgists;
- The Alberta Registered Music Teachers' Association.

Under General Faculty Council
are the councils of the various
faculties and schools.

The Faculty of Arts and Science
is the senior faculty and forms the
nucleus of the University. It contains
the Departments of Botany,
Classics, English, Fine Arts,
Geology, History, Mathematics,
Modern Languages, Philosophy
and Psychology, Physics, Political
Economy, and Zoology. Nearly all
other schools and faculties draw
on arts and science for the train-

ing of their students in some degree.

The Faculty of Agriculture
comprises the Departments of
Agricultural Engineering, Animal
Science, Dairying, Entomology,
Plant, Science and Soils.

The Faculty of Engineering offers
programs in Civil, Chemical,
Electrical, Mining, Petroleum and
Irrigation Engineering and, with
Arts and Science, in Engineering
Physics and Engineering Geology.

The Faculty of Medicine consists
of the Departments of Anatomy,
Bacteriology, Hygiene and
Preventive Medicine, Biochemistry,
Medicine, Obstetrics and
Gynecology, Ophthalmology and
Rhino-Oto-Laryngology, Pathology,
Physiology and Pharmacology,
and of Surgery.

The Faculties of Dentistry, Education
and Law have not yet been
divided into departments nor have
the Schools of Commerce, Household
Economics, Nursing and
Pharmacy. In addition to the departments
listed above are the Departments
of Extension and of Physical Education.

All these organizations require
a great deal of housing. The earliest
University buildings, Athabasca,
Assiniboia and Pembina Halls,
were built by 1914. Today they are
used exclusively as residences, but
are quite inadequate for the needs
of the present student body even
with the help of the facilities provided
for men by St. Stephen's College
of the United Church, and St. Joseph's
College of the Christian Brothers.

By 1922 the University had built
or acquired the Arts Building, the
Engineering Laboratories, the
Medical Building and clinical facilities
in the University Hospital (under
separate administration by the government).

Very little building was done for
a quarter of a century except
small buildings such as the cafeteria,
the infirmary and the Press Building
which came as a result of the presence
of service-men on the campus during
the war. When the veterans came to
the campus in 1945 and 1946 it was
necessary to assemble and erect a
large number of temporary huts
acquired from the Canadian and
American armed services.

Long-range plans were also laid
and already new wings have been
completed on the Medical Building,
the Rutherford Library is under
construction, and there will soon
be a Students' Union Building,
a Provincial Laboratory of Public
Health, and a Biological Science Building.

In the central part of the campus
are the new Mewburn Pavilion for
veterans, the Nurses' Residence,
and the University Hospital on which
a large extension has already been
begun. Farther south still is the
Education Building—formerly the
Edmonton Normal School. In this
area, too, steel has already been
erected for the new Aberhart Memorial
Sanatorium for T.B. patients.

With all these buildings it would
seem that over-crowding was
impossible, but every bit of space
is utilized. Next week's article
will deal with some of the work
done by one department—that
of Mining Engineering.

The gross value of Canada's
pulp and paper output for 1947
was \$707,000,000, up 34 per cent
from 1946.—Quick Canadian
Facts.

In 1947 manufacturing wages
were 94.4 per cent higher than the
average of the five years up to
1939. Cost of living had increased
35.5 per cent over the same base
period. Real wages showed a gain
of 44.9 per cent.—Quick Canadian
Facts.

Hatch Your Chicks Early For Profit

Progressive poultrymen favor
the brooding of early hatched
chicks for sound economic reasons.
Chief among these is the obvious
fact that early hatched pullets
will be the late summer and fall
producers of market eggs which to
the commercial egg producer
means more profit since this is the
period of low supply and higher
prices. The same reasoning applies
to the rearing of early cockerels
which can be marketed while the
demand is keen and prices high,
says H. J. West, Dominion
Experimental Station, Lacombe,
Alta.

Such a plan is also economical
in the use of labor since it comes
during the somewhat slack period
before spring work and gardening
claim attention. As a result, better
care is taken of these chicks than
would be the case for those hatched
later in the season. Coupled with
this is the general observation
that more efficient and effective
operation of brooder stoves is
possible during cold weather, particularly
if the brooder house is well
insulated.

Brooder equipment may be more
economically used if two groups
of chicks, one in February and one
in May, are reared. Many of those
who rear early hatched pullets
follow the practice of purchasing
turkey poults or cockerels in May
when the early chicks are on range.
This considerably extends the
length of time the brooder
equipment is in use and this mini-
mizes the cost per bird for this
portion of the overhead expenses.

Heavy losses from coccidiosis
are less likely to occur in early
hatched chicks since cold weather
has an inhibiting effect on the
development of coccidia oocysts.

Rearing chicks in cold weather
calls for a higher degree of efficiency
than would the rearing of late
chicks. The extra expense is
justified and soon returned in the
form of greater net profits. However,
proper use and care of equipment
must be taken if the best results
are to be expected. The chief
abuse in this respect is over-crowding
of the brooder house. A building

HAY LAKES NEWS

HAY LAKES — Mrs. G. Ogilvie was visiting at the N. Ogilvie home last week.

Mr. and Mrs. C. Nordin and Dale, Mrs. Kiel and Miss Beattie Sich were Edmonton visitors during the week.

Mr. and Mrs. E. Nordin of Enilda were visiting at the O. Grahm home last week. Before returning to Enilda they visited with relatives in Camrose.

The Locker and Meat Market operated by Aspell and Sware opened for business last week. Calgary power is all that is needed to make the establishment complete.

Another visitor to Hay Lakes

last week was G. Bachor, a former business man here.

Little Alva Schmidt celebrated her fifth birthday Feb. 17 by entertaining in the afternoon. Those present included Sharon Tullis, Jeannie Grahm, Gail Sware and Sharon Sware. Elwood Schmidt helped the little girls to eat the birthday cake and ice cream.

Mrs. D. Gellert spent the week-end in Edmonton as did Mrs. W. Henschell and Miss J. Smart.

Miss Gladys Grue of Camrose spent the week-end at her home.

Mrs. A. Heintz and children returned on Thursday after visiting her folks in the city.

Miss M. Hrooskin visited with her sister, Mrs. E. Vereschagin.

Mr. and Mrs. V. Feragen have arrived here from Calgary and intend to make their home with

Mr. Feragen's parents.

The meeting of the Circle S. Club was held at the home of Mrs. B. Sich with eight members present. The next meeting is to take the form of a social evening to be held at M. Ferguson's. The hostess served a delicious lunch at the close of the meeting.

S. Pearson returned from Breton last Tuesday after working there for several months.

Roy Henkelman who has been working in B.C., returned home last week.

Mr. and Mrs. J. Bittner, old-timers in this district, have moved to Edmonton where they are going to operate a rooming house. Their farm is being rented by F. Laskowsky.

IT'S TIME to Order Your CHICKS!

With spring just around the corner it is time to plan your chick requirements for this year. If you have had trouble in raising baby chicks in the spring, we invite you to come in and see us. We will help you as we have helped hundreds who are now our steady customers. To prove to you that we are really interested in your success we have free delivery to your station or to your door with our heated panel truck on all orders over \$25.00. This is worth big money to you, so please encourage us in our new interest in you.

Started Chicks

We also have a limited amount of started chicks especially early in the season. These are a good buy for people who do not have the necessary equipment to start their own flocks.
